

- Contains fugitive emissions.
- Designed to replace conventional boss type ground joint style unions/couplings.
- Easier installation and maintenance.
- Low profile/light weight.
- Reduced chance of galling.
- Repeatedly reusable metal to metal seal.
- Secondary elastomeric 'O' ring seal
- Only light torque required when tightening.
- Compact and available in any combination of threaded, butt weld, socket weld or barbed.
- Designed and tested to ASME B31.3.
- Quality assurance to ISO 9001-2000.
- Material traceability availability.
